MRS. J. A. DONOHOE DIES IN MENLO PARK

The sudden death of Mrs. Christine Donohoe Thursday morning at her home in Menlo Park came as a decided shock to the people of this community, who admired and loved the social leader. She had been ailing for a month but her sickness was not considered serious. Her demise was entirely unexpected.

In her youth she married Joseph A. Donohoe, the well-known banker and head of the banking firm of Donohoe & Kelly Company of San Francisco and the greater portion of her life was spent in Menlo Park and San Francisco. Her youth was passed in San Mateo. She was the youngest daughter of the late John Parrott and the late Abby M. Parrott, who at their death left a big estate at San Mateo. The Emporium is one of the suits of the vast Parrott holdings.

Mrs. Donohoe was a charitable woman, giving freely of her bounty to those less fortunate, but her gifts were never made known, she desiring to go about doing good, like the Master she served so well. Every worthy cause was assisted by her personally and by her money. No one was turned away without her aid.

As a member of the local National Council of Catholic Women she worked unceasingly for the welfare of the society of which she was the president for many years The entertainments, card parties and rummage sales for its benefit were arranged and under her leadership and these functions were always successful. She was a splendid organizer, untiring worker and efficient in handling details and withal kind and courteous and considerate with those women with whom she worked.

St. Joseph's Parochial school will miss the good woman for it was her delight and pleasure to help the struggling institution that is conducted by the self-sacrificing nuns who devote their time and ability without hope of compensation to moulding the character of youth that they may be able to combat the temptations of the world when their time comes for them to begin life's battle. No wonder then it was that during the week when it was learned that Mrs. Donohoe was ill that the little ones under the leadership of the good teachers prayed fervently that Mrs. Donohoe may recover. These prayers came from the innocent hearts of the litle ones but an all-wise and beneficent being thought best to permit the good woman to seek her heavenly home on high, a home she earned and deserved by her noble work on earth.

The Church of the Nativity, which she visited almost daily will also miss her. She was always doing something for it and working side by side with the women of the church in providing funds to meet expenses and making needed repairs on the property.

Mrs. Donohoe was spiritually inclined from girlhood and although a leader of society she never forgot her spiritual duties. She was a noble woman, living only to do good and help others. Her place must be a place of peace in heaven.

The funeral will take place this morning at 10 o'clock with a requiem high mass in the Church of the Nativity. Interment is to be private. In addition to the widower, four daughters and a son survive. They are the Misses Katherine, Christine, Mary and Barbara Donohoe and Joseph A. Donohoe, Jr.

Swart Completing New Booze Laws

The new ordinance upon which the district attorney has been working for some weeks an dwhich when completed will make the business of bootlegging even more difficult than it now is, will be ready at the next meeting of the board of supervisors. This announcement was made last Monday at the regular meeting of the board. District Attorney Swart announced at a previous meeting that he had received much encouragement from leaders in the dry campaign in regard to the present method of licensing soft drink sellers. He announced at that time that he was preparing a new ordinance which would make booze selling more difficult in this county but would not bring a burden upon the legitimate sellers of soft drinks.

In view of the fact that the new ordinance will be ready shortly licenses were only granted temporarily by the board under the old license ordinance.

FREERICK L. PRITCHARD DIES IN SAN FRANCISCO

Frederick L. Pritchard, who passed away at his home in San Francisco last Monday after an illness of two weeks, was well known in this community, having passed his boyhood at Mayfield.

Pritchard, 66, was a native of San Francisco, and was formerly a member of Taylor, Adams & Pritchard ship chandlers. He was a member of the Gentlemen's Sodality of St. Ignatius' church and San Francisco Lodge No. 3, B. P. O. E.

He was the husband of Rose L. Pritchard, father of Dr. Frederick L. Pritchard, Jr., Joseph Pritchard, Alfred L. Pritchard, Bernice R. Pritchard and Mrs. Morrell E. Vecki, and the brother of Mrs. Edward J. Campion.

Interment was at Holy Cross cemetery.

The Pritchard family was well known in Mayfield in the sixties and seventies. The father of the deceased conducted the old Occidental hotel on Lincoln street there for many years and was known to all old timers in these parts. His son learned the plumbers' trade at an early date and in his youth went to the city, where he engaged in the plumbing business, from which he accumulated a fortune that was invested in choice realty. Afterwards Pritchard launched into the ship chandlery business. He was a man of prominence in San Francisco and was held in high esteem by his associates.

The death of Pritchard recalls a tragedy that occured in the family in the seventies which had some bearing on the destiny of the members for the boys and girls as they grew up left their native heath for other parts. In the latter seventies a young son was attending the Mayfield grammar school, then located near the Southern Pacific depot. During the noon recess the boys were at play in the school yard. The older students were engaged in throwing a sledge hammer to ascertain who could throw it the farthest. A stalwart young man living below Mayfield hurled the large hammer, but before it landed on the ground the Pritchard boy, not seeing it, ran from a group of tots just in time to receive the full force of the hammer on his head, crushing it in and fracturing his skull. The boy died in a few days despite the fact that the best medical aid was secured to save him. The young man who hurled the hammer was prostrate. The parents of the boy exonerated him but he was inconsolable. Some time afterwards he left Mayfield and entered a famous college and became a noted professor and a scholar of national fame but the tragedy of his young life seemed to haunt him for he was always morose and never appeared to be happy. He never married, spending his entire life with his books. As an elocutionist he had few equals. Many of his pupils have become noted among the professional men of San Francisco and the peninsula. He died some years ago a broken man, perhaps the result of the accident occuring in his youth for which he was held blameless.

There are many in this section who will remember the incident now recalled by another death, that of Frederick Pritchard.

James Pritchard, father of the deceased, was a cousin of the late Charles Ayres, the noted hotel keeper of early days in Redwood City. They owned and operated the first restaurant in this city in the sixties Pritchard afterwards located in Mayfield, then the biggest town between San Francisco and San Jose.

In Appreciation of Mrs. Howard

In the sudden and unexpected call to her Heavenly Home of Mrs. Emily J. Howard, wife of Michael Howard, came a great shock and sorrow to our community and to her relatives and a host of friends, far and near.

Twenty years ago Mr. and Mrs. Howard came from their San Francisco home to their Redwood acreage on the Woodside road and since that time have been among our most highly respected and honored citizens, identifying themselves always with every cause that was for the betterment and the uplift of the community.

Mrs. Howard was a woman of great intellectual attainments and of a personal charm that often called forth among her friends the expression "to know her is to love her." Her great warm heart throbbed with love for humanity and she never paused to ask "am I my brother's keeper," but regarded it a blessed privilege to give of her bounty and of herself to those less fortunate in this world's goods. This was evidenced not only in our community, which was dear to her, but when the great call came from over seas at the time of the World War, her response was so ready and her work so unselfish as to cause her friends to fear she was jeopardizing her health.

Mrs. Howard belonged to the Storrs family of New York, one of the oldest and most highly respected of the State. Among its members were Richard Salter Storrs, of Brooklyn, N. Y., one of the most eminent divines our country has produced, and Emery Storrs of Chicago, among the ablest lawyers of the middle west.

We extend to Mr. Howard and all her family our sincere sympathy and the assurance that the impress of her personality will long be felt by the community to which she has endeared herself.

STATEMENT OF BANK OF ITALY SHOWS BIG GAIN

With total resources of more than $422,000,000, representing a gain of over $52,000,000 for the past six months, the Bank of Italy has today published its statement of condition for 1926.

The report shows that surplus, undivided profits, and interest earned has increased from $10,000,000 to $13,000,000, representing an addition to these accounts of $3,000,000 from the year's earnings, after deducting dividends, charge-offs and employes' Extra and Special Compensation. More than 600,000 depositors are customers of the bank this statement shows.

"The 313,000,000 in surplus, undivided profits and interest earned, plus the $9,200,000 of invested capital of the Stockholders' Auxiliary Corporation, and the $17,500,000 capital of the bank, makes a total capital investment of $40,000,000" said James A. Bacigalupi, president of the Bank of Italy. "In March, when the $6,250,000 additional of new stock subscribed for has been paid in, the combined capital investment will be rapidly approaching the $50,000,000 mark.

"Over and above the $3,000,000 in earnings added to the surplus accounts, we have paid over $2,600,000 in dividends and $1,078,000 to employes in Extra and Special Compensation.

"We regard the year just closed as one of the most satisfactory our institution has enjoyed. The large gains in total resources and deposits during the last half year have been without the consolidation of other banks, the increase representing the normal growth of the Bank of Italy itself."

The liquid condition of the bank is shown in its investemnt account of $120,000,000, of which more than $100,000,000 is in United States, State, County and Municipal bonds.

ADDITIONAL PERMIT FOR THEATRE BUILDING

Augmenting a building permit taken out December 29, 1924, for the construction of a $110,000 theater building on Burlingame avenue, Ellis J. Arkush was this week granted a $50,000 permit by Building Inspector Walter Scott for the enlargement of the Burlingame structure. The first plans called for the house to seat 1420 people, while the new plans call for a seating capacity of 1890 people.

Other improvement will be made on the theater, it was stated this week by Manager Ray Kelsall of the Garden Theater. The improvements include an enlargement of balcony and mezzanine floor, and a more elaborate decoration of the entire building.

Arkush has announced his intention of erecting a 2000-seat theatre on property recently acquired by him on Broadway, between the highway and the railway. Building operations will be begun within the next two months, according to the announcement.

OUTLOOK PROMISING FOR CONTINUED FEDERAL AID

Efforts of the motorists of the nation to secure continued appropriations from Congress for Federal aid in highway construction are meeting with encouraging success, the California State Automobile Association announced this week, following an analysis of the present congressional attitude on the matter.

While some effort to reduce authorizations for 1928 and 1929 will unquestionably be made on the floor of the House, the majority sentiment in Congress seems to be to continue the government's participation at no less a rate than $75,000,000 per year, according to the automobile association which is leading the campaign in the west to insure continued federal support for the national good roads program.

Authorization for 1926 and 1927 were made by the last Congress and an appropriation for 1927 of $80,000,000 will be carried in this year's agricultural appropriation bill. There is little likelihood of opposition to this appropriation which represents an absolute obligation of the government which cannot be avoided without breaking faith with the states.

However, in the matter of authorizations for 1928 and 1929, it is expected that considerable educational work may still be necessary before the bill introduced by Congressman Dowell of Iowa, chairman of the House Committee on Roads, is approved by both houses of Congress. This bill authorizes appropriations of federal aid funds to the amount of $80,000,000 for each of the fiscal years 1928 and 1929 and also carries an additional authorization of $8,000,000 for each of these two years to be used on forest roads and trails.

The House has referred this bill to its committee on roads for consideration and hearings will be held in February, according to an announcement made this week by H. J. Brunnier, chairman of the Good Roads Committee of the State Automobile Association. With eight new members out of a total of 21 on this committee, it may be necessary to carry on a campaign of education for their benefit, Brunnier said this week. Opposition may come from Massachusetts, New York and Pennsylvania which are represented on this committee, but it is believed that the majority of the members, having the best interests of their constituents at heart, will vote for continued appropriations.

If the federal aid bill is approved on the floor of the House, it will go to the Senate and be referred to the Senate Committee on Post Offices and Post Roads. With the exception of four senators serving their first terms and two others, all of the 16 members of this committee are on record as having voted for continued federal aid when the bill authorizing appropriations for 1926 and 1927 was enacted into law. It is believed, therefore, that this committee will report the bill to the Senate with a favorable recomendation.

CITY MAY GET WATER FROM SPRING VALLEY SYSTEM

The long hoped for, the securing of Spring Valley water for Redwood City may soon be an established fact, if negotiations now being carried on by City Engineer Charles Dimmitt for purchase of water from that supply are successful.

Dimmitt rendered a report before the board of trustees Monday night in which he stated that the city could at present purchase as much as 250,000 gallons a day from the Spring Valley company. When the Hetch Hetchy system is completed Redwood City will be able to purchase as much water as is needed, he stated. The cost of this water would be about 34 cents per thousand gallons, but would vary with the amount purchased. At present this matter is being considered in the event of a dry year when the present supply of water would not be sufficient. But it is hoped by many that eventually this city may receive its whole supply from the Hetch Hetch ysystem.

In expectation of an unusually dry year, City Engineer Dimmitt is preparing to have additional wells drilled to augment the present supply. Work on the first of these wells will be started within the very near future.

Boys Attend Mt. Hermon Conference

Close to 125 high school boys from northern California were in attendance at the Mt. Hermon Older Boy Leaders' Conference from December 26th to 31st. The conference was not a "lark" for seven hours of each day was given over to lecture and discussion periods. However, recreation and fun had their place, in just the right quantity to add spice to the more serious side.

If one had seen this group of boys sitting by the hour listening to men of the calibre of Tully Knowles, president of the College of the Pacific, outstanding business, college and professional men, who challenged the boys to the highest ideals of living; to have heard them discuss the personal problems of high school boys and laying plans to remedy the evils, would have put real optimism into the hearts of those who are concerned with the youth of today.

Most of the boys were members of the Hi-Y or Comrade Clubs. They were challenged with the task of not only going back home to make their clubs wortwhhile, but also to go into the comunity and act as leaders and assistant leaders for clubs of younger boys. A course of leadership training was given which included "Boy Behavior" under the direction of Mr. D. Foster, Metropolitan Boys' Work Secretary of San Francisco. The "Friendly Indian" program was presented by the San Mateo County Boys' Work Secretary, Roy A. Hohberger, and the "Pioneer" program by Mr. Lester Day, Boys' Work Secretary of the Golden Gate Y. M. C. A., San Francisco. A goodly number volunteered to go back home and act as leaders and assistant leaders under these programs for younger boys. Other courses were "Personal Problems," "Hi-Y Club," "Comrade Club", "The Bible, Its Origin and How to Use It."

The recreation periods were given over to volley ball, football, baseball and archery. A course in the later was given which included the making of bows, arrows and other equipment. One afternoon was given over to visiting Santa Cruz. A number of concessions were opened for the conference group, including a swim in the big salt water tank. Many stunts, both musical and otherwise were put on by the boys, themselves, at the period immediately following supper. Mr. Merle Waterman, Boys' Work Secretary of Hollywood, who is a genius in putting on wholesome fun of the type that boys enjoy was very popular with the fellows. The boys were very enthusiastic about the meals that were served by the Mt. Hermon Association and the efforts that were put forth to make them comfortable while there. The weather was very fine during the entire conference.

To Launch Campaign

SENATOR SAMUEL M. SHORTRIDGE is shortly to open his campaign with an extended announcement setting forth his policies and program of the future. He has done a great deal for the state and his announcement will tell what he has in view in the way of legislation for California.. This statement will be watched with interest by his friends who predict big things from the junior senator. The campaign will begin in earnest when this announcement is made. In the meantime the senator's home county, San Mateo, has been organized by D. E. O'Keefe, who has started clubs in Menlo Park, Redwood City, Burlingame, San Mateo, East Palo Alto, Pescadero, Halfmoon Bay and San Bruno. These clubs will meet in Redwood City very soon to plan a campaign with a view of giving a unanimous vote of the county to Senator Shortridge at the August primary. A plan will be arranged for each individual member to secure support for the senator in San Francisco and other parts of the state. The members of the various clubs are determined to make a vigorous campaign during the coming months for San Mateo County's favorite son.

Be Still and See the Glories

THAT life is full of beauty cannot be disputed except by those with undiscerning eyes. Happy is the soul whose eye is so adjusted that it sees and appreciates the radiant glory with which we are enveloped. All life is encircled with glowing tapestries of splendor. From the break of day with its pillars of translucent lights of heaven to the star-splangled curtains of night, one cannot help but feel the glories of life about him, if only he will quiet his soul long enough to observe.

Even the commonplace things conceal unbounded beauties for us—just for the time of observation. Have you every seen the beauty of the irridescent dew on the tender grass as it sparkles in the morning's sun; the sparkle of the fire-fly on a summer evening; the pollen dust on a butterfly's wings; the look of devotion in the eyes of a faithful dog; the perfection of a rose bud? —why heaven is all about us.

Blessed are those who take the time to discern.

Science is now interpreting the world as rythm. The sweep of the mighty Orion and the lift of the winds over the Matterhorn may be measured in perfect cadence. The headlong rush of stupendous solar systems through the sidereal spaces, the bombardment of illimitable electrons in the infinity of the atom, and the throb of the human heart flow with mathematical regularity. This universal poetry discloses itself at every point from the dash of the white waves on the seashore to the wail of the new-born babe.

Happy is the soul who can discern the hidden meaning of life in the harmonies and discords of the world and perceive, with Emerson, that:

In the darkest, meanest things
There alway, alway something sings.

DESTROY ALL OLD YELLOW AND BLACK LICENSE PLATES

When you place the new 1925 blue and white license plates on your car, destroy the old yellow and black plates. Do not throw them along the roadside or in the street, where they may be picked up by anyone.

This request to motorists was made by the California State Automobile Association on behalf of the law enforcement officers of the state. According to the association, which is issuing license plates to its 60,000 members through 24 of its district ofices, automobile thieves are particularly active during the renewal registration period. It is a practice of those who traffic in stolen cars to replace the number plates on the car with old plates which have been discarded.

As cars with 1925 license plates can operate unmolested until after January 30, it is particularly difficult for the authorities during the re-registration period to recover a stolen car when its regular license plates have been replaced with a set of discarded ones.

Thousands of sets were issued by the association as the rush of the renewal registration period began. Sufficient clerical help has been provided, however, so that association members have been able to obtain their new numerals promptly without waiting in line.

MANY EVENTS PLANNED FOR NEW PARISH HOUSE

Inaugurating a new era in the social life of the town, there will be an evening of dancing in the new parish house, just completed by the St. Peter's Episcopal church, on the night of Friday, January 15th. Special music and lighting effects will be the main attraction of the evening, and the young folks of town may well feel at home in the beautiful auditorium.

The following week will see a dinner given by St. Mary's Guild for the older folks of the church and friends, for which they have attained a very favorable notoriety, and all who have participated in the past will be anxious to attend.

These activities, of a community nature, pressage a fulfillment of the desires of the vestrymen to create a comunity home for organizations that need the comfort of convenient housing and equipment.

Church meetings are being held regularly each Sunday, but the formal opening is to be held about January 24th, at which time some of the officials of the diocese and leading men will attend. Every opportunity will be afforded the people in general to look over the well-planned and spacious new home of St. Peter's parish.

Cleaning Without Odor by the F. Thomas Process

Our many years of experience has taught us that it is impossible to do perfect cleaning with cheap, inferior methods. That is why we found it necessary to invest nearly $500,000 in the equipment of a plant and the establishment of an expert organization to do the quality of work demanded bp our customers.

With the "F. Thomas Process" we not only remove every particle of dust but we return your garments without that usual disagreeable smell of gasoline. Every drop of gasoline we use in cleaning is redistilled and very highly refined.

Raw gasoline—the kind that you buy for your automobile—is full of heavy oils and unfit for cleaning fabrics. It is little better than ordinary distillate and leaves a sickening gasoline smell in your clothes.

News From Neighboring Towns

East Palo Alto

Three homes in this community have been saddened by death in the past week. Mrs. Abbie A. Spaulding passed away at the home of her son on Donohoe street on New Years morning. She had lived quietly in the colony and not long enough to be well known to the people.

Asa M. Davis of University avenue passed away very suddenly the morning of Jan. 2. He was a retired contractor and had lived on University avenue for the past year, and in January 3 John Tremelling, one of the earliest settlers in the community, passed away at his home on Euclid avenue. He had been in failing health since being injured some months ago, but it was not known to the family until the evening before that the end was so near. The sympathy of the people of East Palo Alto is with the ones in these three homes, who have had this loss to sadden the coming of the new year.

GRANGE MEETS

The Dumbarton Grange held their regular meeting Tuesday evening and a most interesting session was held. Horace Keesling, the president of the San Jose Flower Lovers' Club, spoke during the lecture hour in the interest of home beautification and the work of the club. He stated the San Jose club was organized seven years ago, and was unique in that it had no dues and made no charge for their flower shows. Their revenue came from flower sales, and in the seven years they had accumulated about $700 worth of vases to use in their shows and had $1500 in money to their credit. The San Jose Chamber of Commerce furnishes a room for their meetings and a room for their sales and flower shows in appreciation of their work in Santa Clara county. His talk preceded the regular business session at which interesting reports were given by various committees.

The entertainment committee announced the 'Entertainment by Men,' which was to be presented on January 16th, Saturday evening. It is said to be a scream from start to finish. The program is to be followed by dancing. Tickets are on sale and are 25c. The dancing to follow will be 25c for gents, ladies will not be charged. The program features a debate "Resolved that house-cleaning does more harm than good."

A paper, "Fathers of 1999."

A skit "The Ladies Sewing Circle" and musical numbers and monologues and not a waiting or dull minute. This is to be a peppy program by men, even to the refreshments.

MEETING TONIGHT

The Grange has a party arranged for tonight, Saturday, Jan. 9, for the members and prospective members. The organization now has 95 active members and a class of 22 waiting for initiation. Applications will be received for the next two weeks for the class to be initiated the first meeting in February.

The poultry committee reported that 75 per cent of the flocks of chickens in the state are reported to have chickenpox and if any appears in the colony to arrange for vaccination immediately. The government bulletin number 300 is now available for poultrymen and treats of the poultry disease so fatal last year and which is again making its appearance. F. W. Dozier is chairman of the committee and at present is vaccinating all his birds as a preventitive measure. Information can be secured from him as to cost and who to secure to do this work.

The home economics committee gave some good recipes and kitchen helps. It was suggested the Grange plant a Christmas tree on the school grounds to be used later as a living tree for a community Christmas tree and this was referred to a committee.

The next meeting will be February 2nd.

New Years eve was celebrated with several New Years parties in different homes and a watch night service was held by the prayer meeting group at the Spaugh home on O'Conner street.

The announcement of the wedding of Thomas Weeks, eldest son of Mr. and Mrs. Charles Weeks of Owensmouth and Ada V. Hinkle, granddaughter of Mrs. Nellie Simmons and a niece of Mrs. A. C. Mrs. Weeks has lived here for some time and is a graduate of Sequoia High School. She was in the employ of the Palo Alto Times. Tom Weeks grew up with the colony and the best wishes of a host of friends go with them in the establishment of this new home. No particulars have been received as to whether they will live on the ranch here or in the south.

NEWS OF MENLO PARK

Miss Margaret Damianovich, a native of Sacramento, aged 23, passed away at Palo Alto on January 2nd., after an illness of three weeks. The remains were interred in Holy Cross cemetery, Colma, on Monday last. The deceased was a step daughter of Frank Krauer, proprietor of the Triumph theatre here. The young lady commuted, having an attractive position in San Francisco. Miss Damianovich was a lovable young woman, liked and beloved by all who kne wher. She is survived by her mother, a sister and a brother, who have the sympathy of the community in their sad bereavement.

Surveyors and engineers have been employed this week in surveying the Timothy Hopkins tract. The work has given rise to the rumor that the big holding of over two hundred acres has been sold to a wealthy syndicate who is to subdivide the property into small tracts and place it upon the market at once. It is to be an exclusive residential district with big restrictions, so none but the wealthy are well-to-do can buy in the tract. If this rumor proves to be true it will be the bigest thing that has ever happened in Menlo Park A splendid class of citizens will locate there and the opening up of the tract with its roads and bridges across the San Francisquito creek will connect Palo Alto with Menlo Park, making one large and prosperous town or city. It is said a fabulous price was paid for the choice parcel of land.

H. A. Chandler has disposed of his groceteria at Mayfield at an attractive profit to a Long Beach grocer. Mr. Chandler, Jr., who conducted the Mayfield concern, will devote his time to the store here.

Owing to the rapidly increasing business of the local postoffice it will soon be made a second class office with increased pay to the popular postmaster, Bernard Larrecou, who is an efficient, capable and obliging official.

Born—At the Palo Alto hospital to Mr. and Mrs. Frank Kelly of Menlo Park, Tuesday, January 5, a son. Mrs. Kelly was Miss Margaret Walsh of Menlo Park.

The regular monthly meeting of the Ravenswood Chamber of Commerce was held in the Ravenswood school auditorium last Monday evening. The principal subject discussed was the proposed formation of a water district. The committee investigating the matter was not ready to report, as certain data necessarrary had not been secured. A complete report will be submitted to an open meeting to be held Monday evening, February x, at 8 p. m.

The boundaries of the water district has not been decided upon by the committee. Members of the chamber of commerce from the western portion of the Ravenswood School District are anxious to have a district formed.

The following new members were accepted: M. C. Ingraham, John C. Davidson, A. G. Fryckman, H. W. Opperman, Albert Webb, P. H. Smith C. B. Hensley.

The weekly meeting of the Menlo Park Merchants' Association on Tuesday evening was largely attended by all the business men in twon and others. Mr. McLaughlin resigned as secretary owing to rush of business and Miss Noel, the realty broker, was elected in his stead. Mr. Furnivall, the furniture dealer, launched into a tirade of abuse of the Palo Alto Times for its continued knocking of Menlo Park. He read articles from the paper showing how prejudiced the Times was against the town. Furnivall declared that if any thing was said favorable of the base hospital, near here, then the paper would say it was located in Palo Alto, but if anything derogatory appeared about the institution then, of course, it was situated in Menlo Park. Other speakers who backed Furnivall in his onslaught on the paper. A committee was apointed to determine if the government could not be induced to have the proper designation made, that of Menlo Park. The institution is located in San Mateo county, not far from Menlo Park. The members after considerable discussion planned to put up signs on the highway designating the town, and also to erect others to show the weary wayfarer the direction of Dumbarton bridge. The aproach on this side will soon be completed and in a short time thousands will motor to the big span. The suggestion of signs is timely. The association is planning big things for Menlo Park. May it keep up the good work auspiciously begun.

The quail season closes on January 15th. All hunters report having plenty of shooting during the time allowed to hunt the warry birds that are fast diminishing on the foothills and mountains of the peninsula. The settling up of the country districts is responsible for this. In days past the San Gregorio district was the best quail hunting place in the state. The birds found shelter in the low brush and secured food from adjoining grain fields and water in nearby creeks. It was an ideal locality for the birds that multiplied by thousands, furnishing splendid sport for the hunter. Other localities in the county also supplied Nimrods with good quail shooting during years agone, but it is only a few years more when the birds will become extinct in this county.

Owing to a desire on the part of the proponents of incorporation to straighten out a tangle on the streets bordering on the Atherton boundary it only comes to the property line instead of taking in half the street. It is believed the Atherton trustees will agree to extend its boundary so to taken in the center of the streets in dispute. For this reason no mass meeting of the incorporators was held this week. A meeting may be called for next week. The citizens will be duly notified of such a meeting.

The retiring of the William Cluff Company, wholesale grocers, from business, one of the oldest institutions of San Francisco and one of the best known houses become defunct. Mrs. William Cluff whose husband started the institution, and her daughter, Mrs. Percy Cumberson, for many years have lived in Menlo Park, having attractive homes on Glenwood avenue near the estate of A. G. C. Hahn. They will continue to make their homes here.

A large sign with the inscription "To Dumbarton Bridge" has been placed on the corner of Ravenswood avenue and the highway. A hand points the way to the big span. This is very appropriate as many people come here and do not know the direction of the bridge. This will guide them. The putting up of the sign is timely and very considerate of Mark McCann, who donated it. If one of the local civic organizations would furnish the electric lights so that it may be seen at night, a real benefit to the town would be conferred.

Kenneth Martin, the local plumber, has awarded a contract for the erection of a two story building on his property facing on the highway. The structure is to cost $10,000. The lower floor is to be used as a plumbing shop and sales room and the upper part of the building will be occupied as living quarters for Mr. Martin and his family. Ground has been already broken for the structure. It will be an imposing building.

In the death of E. S. Heller, the widely known lawyer and philanthropist, who maintains a summer home at Atherton, this community has lost a good friend, his neighbors an affectionate and considerate gentleman, and the state and nation, a splendid lawyer and a first class citizen. Few men were held in such high esteem by the people of the state as was Mr. Heller. Although possessing vast wealth he was thoroughly democratic, the poor and lowly being just as dear to him as the multi-millionaire, and the captains of industry. He made no distinction in fact, he appeared to be happy when talking to the laboring men of his estate, and consulting with them. He gave freely and many were his benefactions, none knowning the extent of his charity, save those who received them. Mr. Heller's death last Saturday in his San Francisco home was a shock to his many friends and admirers. The citizens of Menlo Park and Atherton deeply mourn his los, for he was a good friend to both communities, giving them his advice and legal knowledge whenever it was needed. He loved this community and loved its people, and they loved him. His memory will live long and be cherished for generations. His bereaved family has the sympathy of the community in its sad bereavement. May his abiding place be with the angels.

A rumor was afloat in town yesterday that another bank was to be started on Santa Cruz avenue by a San Francisco firm, which is to erect a two-story building. The vest building activity in that locality is sure to attract busines concerns.

The Felton property that was subdivided some time ago and placed on the market has been turned over to Wasson and Spink of Palo Alto for sale. They will handle all sales here after.

All the schools opened on Mondav with increased attendance which demonstrates the rapid growth of this community. It will be only a short time when the local grammar school will have to be increased in the way of new buildings.

Al Giddings, who many years ago ran a ranch at aLurel creek, near where the San Mateo hospital now stands, was a visitor in town on Wednesday. He has been away for over fifty years.

At a meeting of Menlo Park N. S. G. W. held on Thursday evening, the following officers were elected for the term: Edward Derry, past president; Bernard Larrecou, president; William Mitchell, first vice-president; Lionel Nunn, second vice president; Philip Blanchard, third vice-president; Roland Midgley, treasurer; Ted Hoff, financial secretary; George Murray, marshal; Edwin Walsh, outside sentinel; Joseph Kelly, inside sentinel. The officers will be installed on January 25th.

Frank Caine spent a portion of the week in Santa Cruz putting over a big deal in real estate. Mr. Caine is one of the popular local realty brokers with a big clientele.

Rev. Donaldson is temporarily filling the pulpit in the Presbyterian church, and may be made the permanent pastor. He is an eloquent speaker, possessing the pleasing manner of the true orator.

The Hetch Hetchy pipe line crossing the bay at Dumbarton was finished yesterday. The bridge portion was completed some time ago. The part connected yesterday was the sub-marine or goose neck portion pnderneath the bay, where the draw bridge is located. The project cost the city of San Francisco like $2,000,000.

Muriel J. Bradley, the loved daughter of Mr. and Mrs. W. J. Bradley, passed away in San Francisco on Wednesday, following a short illness. She was a native of San Francisco, aged 17 years. Her father, William Bradley was born and raised in Menlo Park and early in life became a golf instructor. The deceased is survived by her parents, a sister and three brothers. Miss Bradley was an unusually charming and pretty girl. Her aunts, Mrs. J. F. Guthrie and Mrs. K. I. Wesendunk formerly lived here.

The Telephone's Inheritance

IN its material equipment the telephone was born poor. The art of telephony inherited little from older branches of the art of communications that could help its technical progress toward its destiny of usefulness. There was a spiritual heritage, however, for the telephone worker was heir to the tradition that had grown with the years among those who undertook to transmit or transport the words of men.

The message must go through! Greek runner, Roman courier, King's messenger, and Pony Express rider, sped to their distant goals self-urged by a consciousness that human need was being served. At the switchboard or telegraph key, in the mail car or airplane, the manifestation of this urge is ever present.

Telephone service by its very nature inherits this Spirit of Communication. For the men and women who comprise the organization that is today responsible for the delivery of 50,000,000 messages a day, it is the endowment with which their service began.
